## 4 METODOLOGÍA

### 4.1 PRESENCIAL

La metodología presencial se fundamenta en el estudio de las características fundamentales y de las leyes que rigen los contenidos de la asignatura. Se desarrolla un trabajo dinámico de exploración en los objetos del modelo, sus conceptos y su operatividad; así como un trabajo de campo.

Los distintos entornos vivenciales en los cuales el estudiante interactúa fuera de clases están impregnados de la globalización y el rompimiento de paradigmas. La metodología debe ser práctica y ante todo una acción seductiva que combine elementos tecnológicos, vivenciales y conceptuales.

Se aprovecharán las tutorías presenciales para explicar la fundamentación teórica, realizando algunos ejemplos tipo que ayuden a comprender la utilización del método para resolver las diferentes situaciones problemáticas que se planteen, se propondrán ejercicios en los cuales el grado de dificultad aumente y se propondrán tareas para realizar en grupos o individualmente con asesorías presenciales o virtuales.
